Iyed Acheche

Fort Worth, TX 76109 • iyed.acheche@tcu.edu • iyed.net • +1 (817) 714-6133

EDUCATION

Texas Christian University — **Fort Worth, TX**
BoSc in Computer Information Technology — **May 2026**
Honors: Chancellor's Scholar, Trustee's Scholar, Dean's List — **GPA: 3.5**

EXPERIENCE

Intern, Teralogix (early-stage startup) — Naples, FL — June 2025 – August 2025

- Assisted in developing a proof of concept for Cristos, an AI-driven workflow platform using Node.js, Python, and LangGraph.
- Collaborated with engineers and product leads to design scalable components aligned with software-engineering best practices.

Student Contributor, Brazos Safety Systems — Fort Worth, TX — September 2025 – December 2025

- Built a weather integration API for Brazos Safety Systems' FDM platform to enhance flight safety analysis using real-time METAR data.
- Collaborated in an Agile team to design and deliver a weather-driven analytics module.

IT Intern, Texas Christian University — Fort Worth, TX — January 2023 – April 2025

- Provided technical support to students and staff, resolving 80+ IT issues each semester to improve efficiency.
- Conducted software installations and updates, enhancing user experience and security compliance.

PROJECTS

Froggie 5-O — Web Application (Node.js, Express, React, PostgreSQL, Socket.io**)**

- Developed a campus safety ride-sharing web app enabling real-time ride requests, chat, and location tracking. Implemented authentication, session management, and a responsive React UI for seamless coordination between drivers and riders.

Audio Transcription Web App — Spring Boot / Vue.js

- Developed a full-stack web app for long-form audio transcription using Java 17, Spring Boot, and Vue 3. Implemented server-side re-encoding (mono 16 kHz) for reliability and size reduction, Whisper-based transcription, and PDF generation via PDFBox.

LEADERSHIP & INITIATIVES

Team Leader, Everse — Johannesburg, South Africa — Nov 2021 – Apr 2022

- Led an ALA-funded project supporting remote African artists with affordable tech solutions, engaging 30+ artists across rural regions.

Co-Founder, CodeInn — Sousse, Tunisia — Dec 2016 – Nov 2019

- Founded a youth coding initiative expanding to three regions and teaching 300+ students foundational programming through self-directed clubs and workshops.

ACTIVITIES

Student, African Leadership Academy — Johannesburg, South Africa — August 2020 – June 2022

- Participated in a selective leadership program focused on entrepreneurship, innovation, and social impact.
- Completed a business-focused curriculum alongside Cambridge A-Level courses and collaborated on team ventures addressing real-world challenges.

COMPUTER SKILLS

Languages: Python**,** Java, HTML, CSS, JavaScript, C (Minimal familiarity)
Frameworks/Tools: Node.js, Express, React, Vue.js, Spring Boot, Docker, Git, TailwindCSS, Socket.io, PostgreSQL, PDFBox
